

2025 AICT/CAS Joint Property/Casualty and Health Actuarial Seminar

Presenters

**Robert Lee, FCAS**

*Head of Data and Founding Actuary,
Amber Technologies*

Robert Lee, FCAS, is the Head of Data and Founding Actuary at Amber Technologies, an insurtech focused on supporting electric vehicle ownership through remote diagnostics and protection plans. He leads Amber's actuarial and engineering efforts, including pricing, underwriting, and remote diagnostics. Prior to Amber, Robert was at Milliman and Metromile, where he specialized in personal lines pricing leveraging data from telematics and catastrophe models.

**Josh Taub**

*Instructor,
The Infinite Actuary*

Josh Taub is the Director of CAS Exams and instructor for CAS exams 5 & 8 for The Infinite Actuary, and has helped more than 8,000 students prepare for their actuarial exams. After spending the first decade of his career at Farmers Insurance, Josh has worked at, advised, and invested in tech startups both in and outside of insurance. Josh has spoken at CAS sponsored events in the U.S. and internationally, and has been published in Carrier Management and Property/Casualty 360. He is an active CAS volunteer and received the CAS Above & Beyond Achievement Award for volunteers in 2018 and 2024. Josh is also an avid traveler, having been to over 75 countries, though he currently lives in San Diego with his wife Lolita.

**Jonathan Lim**

*Head of Underwriting,
Re*

Jonathan is the Head of Underwriting at Re. With over a decade of experience in the (re)insurance industry, Jonathan is a business leader who has collaborated extensively with insurance carriers, fronting carriers, MGAs, brokers, and insurtechs. Previously, he held key leadership positions at Next Insurance and Aon Reinsurance, where he developed sophisticated capital and reinsurance strategies for both established and emerging insurance carriers. Jonathan brings deep expertise in risk transfer solutions, cashflow modeling, and product development as a seasoned insurance analytics professional. He is a Fellow of the Casualty Actuarial Society and holds a Bachelor of Mathematics from the University of Waterloo.

2025 AICT/CAS Joint Property/Casualty and Health Actuarial Seminar

Stephen Dong, FIAA

*Director,
PwC Hong Kong*

Stephen has over 10 years of experience in actuarial advisory and audit work, specialising in general insurance. He started his career in PwC Australia before transferring to PwC Hong Kong in 2018. Over the past 5 years, he has been extensively involved in IFRS 17, RBC and reserving projects with multiple insurers across Hong Kong, Singapore, Thailand and Taiwan. He has also worked across non-traditional actuarial fields such as advising on new market entry licensing, M&A valuations, banking and strategic transformation. He graduated from University of New South Wales, Australia, with majors in Commerce and Economics.

Cathy Chang, FIAA

*Senior Manager,
PwC Taiwan*

Cathy is a Senior Manager at PwC Taiwan and General Insurance Lead in the Actuarial Services Team. She has more than 10 years of experience in actuarial advisory and audit work across Australia, Taiwan, Hong Kong and wider Asia. Most recently, she has lead the actuarial stream in IFRS 17 design, implementation and proactive assurance projects for general insurers across Taiwan and wider Asia and also non-IFRS advisory projects such as Actuarial Due Diligence for (re)insurer acquisitions in Asia. Cathy graduated from Australian National University with majors in Actuarial Studies and Finance and qualified as a Fellow of the Institute of Actuaries of Australia in 2018.

2025 AICT/CAS Joint Property/Casualty and Health Actuarial Seminar

Presenters

Wen-Ko Hsu

*General Manager,
Taiwan Risk Management Corporation*

Areas of Expertise

Earthquake Engineering, Catastrophe Risk Modeling and Applications

Dr. Hsu has nearly 30 years of experience in the development and application of natural disaster risk assessment models. The suite of natural catastrophe risk models developed by his team has been extensively adopted by the insurance and industrial sectors. In recent years, his work has focused on the research and development of risk assessment technologies for climate change and renewable energy infrastructure, including offshore wind farms and photovoltaic systems.

Current Positions

1. General Manager, Taiwan Risk Management Corporation
 2. Adjunct Associate Professor, Department of Civil Engineering, National Central University
 3. Certified Civil and Structural Engineer
